PRINTABLE WORKSHEET

One-Week Social Content Planner

A flexible worksheet for choosing a weekly theme, planning a useful mix of posts, and checking each draft before it goes live.

> **How to use this resource:** Choose one idea, adapt it to your needs, and review results carefully. AI tools can make mistakes; check important information and protect private details.

Before you plan

- Who do you want to reach this week?
- What useful outcome, question, or story can you share?
- What is one real offer or next step you can explain clearly?
- Choose a theme broad enough for several angles but specific enough to be useful.

Seven-day planning grid

- Day 1 · Teach: one small lesson or tip.
- Day 2 · Show: a simple process or behind-the-scenes step.
- Day 3 · Answer: respond to one recurring audience question.
- Day 4 · Example: share a project, demonstration, or case—only with permission.
- Day 5 · Invite: ask a useful question and listen to responses.
- Day 6 · Resource: point to a helpful tool or learning step.
- Day 7 · Review: summarize the week or offer a low-pressure next step.

Draft with AI, edit as a person

- Use this starter: “Draft a [format] post for [audience] about [one clear point]. The goal is [goal]. Keep it [tone and length]. Use only these verified notes: [notes]. End with [call to action]. Flag anything I need to confirm.”
- Ask for three opening options, then choose or rewrite one that sounds like you.
- Check that any examples, claims, images, testimonials, and customer details are accurate and cleared to use.

Blank post worksheet

- Topic and reader question: _____
- One helpful takeaway: _____
- Evidence, example, or story: _____
- Opening line: _____
- Call to action (if useful): _____
- Fact-check and permission notes: _____

Weekly review

- Which post was genuinely useful to your audience?
- What question should you answer next?
- Did you make claims you can substantiate?
- What can you simplify or stop doing next week?
- Planning is a guide—not a promise of reach or a guaranteed marketing result.

Educational resource prepared for personal learning. Adapt the worksheets to your own needs. AI output is not a substitute for professional advice in legal, medical, financial, or other high-stakes situations.
